The Federal Direct Graduate PLUS Loan is a loan program that enables graduate students to borrow directly from the U.S. Department of Education to help pay for their educational expenses. Remember: This is a loan that must be paid back; please read this information in its entirety prior to submitting a Graduate PLUS Loan Adjustment Form to the NUNM Office of Financial Aid.

## ELIGIBILITY CRITERIA

- U.S. citizen or eligible non-citizen
- Completed FAFSA and maximized Federal Direct Loan eligibility
- Not in default on prior educational loans
- Meets federally defined creditworthiness standards (pass a credit check)
- Enrolled at least half time in a degree program
- Meeting satisfactory academic progress

## CREDIT CRITERIA

A borrower cannot be:

- 90 days or more delinquent on the repayment of any debt; or
- The subject of a default determination, bankruptcy discharge, foreclosure, repossession, tax lien, wage garnishments, or write-off of a Title IV debt during the last five years.

## INTEREST

For academic year 2018/2019 the interest rate is 7.6% for loans disbursed July 1, 2018, thru June 30, 2019. NUNM anticipates that this will change for the 2019/2020 academic year, which will be determined in June 2019.

## FEES

The U.S. Department of Education keeps a percentage of the loan you borrow. Historically, the fee has been 4%. However, this could change and will be determined in June 2019. For additional information, visit [studentloans.gov](http://studentloans.gov).

## REPAYMENT

You may request a deferment on the payments for this loan while enrolled at least half time in a degree program; otherwise repayment begins 60 days after the loan is disbursed.

## THINGS TO KEEP IN MIND WHEN BORROWING STUDENT LOANS

- Only borrow what you need. The less you borrow now means more future earnings you preserve and keep for yourself, as opposed to covering debt repayment.
- Use student loans for education costs only. Don't use student loans to support a lifestyle—imagine paying 50% more for everything in your life. Because student loans have fees and must be repaid with interest, you will pay back far more than you borrowed. We encourage you to create a budget and stick to it.
- Make interest payments while you're in school. You can make a one-time payment or schedule monthly payments to be applied toward any interest that is accruing while you're in school. You may not be required to pay the interest while you're in school, but doing so will save you money and time during repayment.
